

Sask Crime Watch Advisory Network

SIGN UP NOW for LUMSDEN and AREA

When an **RCMP** detachment becomes aware of an incident or crime, they can issue an advisory via the system and local residents who have signed up for the program will become aware of what happened. We want rural residents to feel safe in our communities. By receiving advisories and reporting crimes or suspicious activities, residents can help foster resilient hometowns that actively prevent crime, enhancing public safety.

visit **SARM website** to sign up (takes about 1 minute)

Once you create your account or log in, you will be asked to provide the way you would like to be notified (i.e. Text message, Email, Voice calls). Please note, you will be notified through all of the methods you provide. **If you do not wish to receive calls through your landline phone do not provide this number.** By default, the system will only send messages to a landline phone between the hours of 8:00 am and 8:00 pm - Text and email will send 24/7. Once registered you may edit your preferences at any time.
